

FAMILY OWNED AND FULLY INDEPENDENT

Able Moving prides itself on being an independent mover. There is a huge difference between independent moving companies and the van lines. Able Moving has always chosen to only utilize full time, professional movers – unlike the van line model, which utilizes drivers to transport shipments and various labor methods to load and unload. Customers that have experienced moves with both a van line and an independent mover know the difference. Day help is not vested in a successful, efficient move – but the trained, professional movers at Able are! Using only our own personnel on all moves costs the company more but this family is not going to allow outsiders, whom we have not vetted or trained, anywhere near our customer or equipment.

FULL TIME, PROFESSIONAL PACKERS, MOVERS, ESTIMATORS AND STAFF

Able Moving is proud to employ a large staff of caring, loyal, quality people. The key to success in any service business is the people who actually perform the work. For over 30 years, Able Moving has carefully built an excellent reputation by focusing on the customer first. Moving can be extremely stressful. Our teams have been trained to treat the customer as they would treat their own families. Nothing less than satisfied customers will do. Our teams understand that they are responsible for the company's reputation with each and every customer. Once a team is assigned a move, they own the impression left with the customer. So, everyone at Able Moving is invested in each move.

STORAGE SOLUTIONS

Able Moving & Storage provides “on-site” full-service storage solutions, and encourages all customers considering storage to visit our facility. A guided tour and explanation of the storage process will provide you with peace-of-mind, and allows us to show you a clean, neat, and well-organized facility.

Able owns and operates five large warehouses located in Northern Virginia. The warehouses were built specifically for storing household goods, office furniture, and equipment.

Goods are stored in wooden vaults or on steel racking. Proper padding and stretch wrapping are applied to all of your goods as appropriate, and the goods are then placed in vaults or on racks.

Our secure facilities are fully protected by secure fencing, monitored by 24-hour video surveillance. Secure, state-of-the-art warehouses feature the very latest in fire and theft protection as well as trained, full-time staff.

LOCAL MOVING

A successful local moving experience requires good planning. From the very first phone call you make until the completion of your local move, we leave nothing to chance. And we remain in close contact throughout the entire process. Our goal is to provide excellent, stress-free services at an affordable rate. From the free, no-obligation, in-home estimate, to pad-wrapping all furniture before it leaves your home, our dependable local movers are trained to treat your belongings like their very own!

Once you hire Able Moving, you will be assigned to an in-house customer service representative. Your CSR will schedule your dates, answer questions, and help you in every way up to—and including—move day.

INTERSTATE MOVING

A successful long-distance moving experience requires good planning as well as flexibility. From the very first call you to make, to the day of your interstate move, Able Moving will be with you every step of the way and will remain in close contact with you throughout the entire process.

We can accommodate any moving requirement or need, no matter how complex. Able can handle the job with the efficiency and attention to detail it requires, ensuring a fantastic interstate moving experience. This assurance is possible by having at least two full time Able employees on all long-distance jobs throughout the country. If additional services are required outside the region we are not confined to using a van line's network of agents, we are able to select the best affiliate for service.

PROFESSIONAL & CERTIFIED OFFICE MOVING

Able Office Moving is a full-service commercial moving and storage company. Experienced in office moves for a wide-range of industries, including corporate office space, libraries and museums, aviation, medical facilities, restaurants and more.

Every move, no matter the size or industry, requires detail, care, and organization. Our fully trained professionals specialize in local and long distance office moves, systems furniture disassembly/reassembly, technology disconnect & reconnect, inventory and asset management, space planning and more.

Our Pros Specialize in...

Management

Space Planning
Warehousing & More

INTERNATIONAL MOVING

Why should you trust Able Moving & Storage with your international transfer? Because the United States Department of State does! Since 2009, Able Moving has been a trusted service provider for the State Department, responsible for moving employees in and out of the Washington, DC, area as well as from post to post all over the world.

Able Moving works hand in hand with our partners throughout the world to create the premier relocation experience. Because we are not confined to using a van line's network of agents, we are able to select the best agent for service, pricing and communication.

Able Moving and Storage truly understands how critical planning and attention to detail are to a successful moving project. You can feel safe and comforted, knowing that every aspect of your move will be handled by our experienced movers from the initial planning stage, until to the completion of your move. We want your thoughts to be on the new adventure of living in another country — and not on how your belongings will get there.

HIGH QUALITY SERVICES

Able Moving & Storage, Inc. was established in 1987 by Bill, Jim, and Joe Singleton, with a vision of becoming the most customer focused, high value moving company in the Mid-Atlantic.

Over the last quarter of a century, Able has earned the reputation of being a fair, ethical, and trusted family owned and operated business. Moving and storage services in the Virginia, Maryland, and Washington DC areas have always been a core part of what we do. Since the very first move in March of 1987, Able has moved thousands of families and businesses. Able Moving's reputation for consistently delivering excellent service at fair prices has been the driving force behind steady, consistent growth.
